"PROMISES, PROMISES"

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for following week.

EASIER SAID THAN DONE...

Accordin' to th' stories goin' around in Washington these days th' Cahlah Cabinet & top aides hold a little book titled "Promises, Promises" in which are listed all of th' things President Jimmy told us he was gonna do to bring th' U.S. of A. closer to th' Utopia in which th' Govmint is gonna cure all our aches & pains, financial & otherwise and some of th' nosy folks in th' news media have been tryin' to get their hands on a copy. It got to be quite sizable volume an' th' reason these anooopers want it is to try and figger out jst which of th' Promises may hold top priority in Mr. Cahlah's plans for us.

Rumors indicate there is already considerable stress & strain takin' hold within th' Administration and there seems to be considerable reluctance on th' part of a good many folks picked for high posts to comply

## Replacement Cattle Prices Eased Last Week at Most Points, Weather Hurts

Kansas City, Feb. 28 (USDA) — National Feeder Cattle and Calf Summary: Week ending Feb. 25, approximately 181,000 this week, 193,600 last week, 182,000 last year. Feeder cattle and calf prices were steady to 2.00 lower at most important producing points with the exception of Kentucky, Florida and South Carolina steady to 1.00 higher. A lack lustre slaughter cattle market and dry and dusting weather situation were factors in the decline in

the western two-thirds of the United States. Winds from 90-113 miles per hour lifted topped in eastern Colorado, Western Kansas and the Texas Oklahoma Panhandle and deposited it in the Georgia, South Carolina area. There were many concerned cattle operators who are within two to four weeks of making a decision as to the dispersal of their outfits. Rain, snow and sleet gave some beneficial moisture from Montana to the Great Lakes.

**Nutrition Panel To Hear Beef Industry Witnesses**  
St. Louis, Feb. 28 — Senator George McGovern said that his Senate Select Committee on Nutrition and Human Needs will continue its series of hearings on the relationship between diet and disease with a session on March 24th, which will feature witnesses from the beef industry. The witnesses will include representatives from the American National Cattleman's Association, as well as scientists and nutrition experts, who are expected to testify on their behalf.

In a letter to Senator McGovern, Wray Finney, President of ANCA, praised the announcement saying that his group appreciated the fact that McGovern, as Chairman of the Committee, intends to keep the record open as all sides of the controversy generated by a committee staff report issued earlier this year can be heard. "The Committee listened to testimony" (CONT. ON PAGE 15)

**Fort Worth Feeder Calf Show-Sales Set For 24th Year**  
Fort Worth Stockyards and the commission firms operating there have scheduled their 24th year of special stocker-feeder calf show and sales for 1977 with seven sales, the first six on the last Thursday of May through October, and the

seventh on the last Friday of May through October. "Most of the American people — as well as those of us who are farmers and ranchers — are concerned at the enormous drain of organized labor for this Congress and for the new Administration. All of us are the people who have to pay the untold costs in the form of higher prices for everything we buy — and through another round of inflation which will further erode our savings and pensions." ## Cattlemen Oppose Wheat Graze Out Subsidy Plans

Washington, Feb. 22 — The American National Cattleman's Assn. expressed its opposition to a proposal to pay a government subsidy to wheat farmers if they let livestock graze out part of their winter wheat acreage. ANCA President Wray Finney, Ft. Cobb, Okla., cattleman, expressed the association's opposition in testimony before the House Agriculture Subcommittee on Livestock and Grain. The testimony was on the proposed Special Grazing and Hay Program for Wheat Acreage — introduced in the House by Congressman Keith Bohlen, R-Ill., and in the Senate by Senator Henry Bellmon, R-Ok.

The bill would authorize the Secretary of Agriculture to pay wheat farmers \$1 per bushel on their average wheat yields if they let livestock graze out or produce green chop forage or hay from up to 40% of their allotted wheat acreage. Opponents have said the legislation is designed to help both wheat and cattle producers at a time of lower wheat prices and more limited grazing and hay supplies because of drought.

"On the surface," said Finney, "HR-3367 has appeal because it would theoretically aid the drought-stricken wheat farmer while at the same time providing grazing for cattle which might otherwise have to be sold because of lack of forage. In practice, however, the program would present many problems."

"For the past three years, the cattle industry has experienced the worst financial losses in its history, largely because of a cyclical over-supply of cattle along with inflated costs. At this point, what we don't need is any incentive to increase beef production."

## Liquidation Expected to Continue at Slower Rate This Year, Adverse Weather, Drought May Speed Selloff

Denver — U.S. cow slaughter is continuing at a rate which is putting the basic cow herd back into better balance with demand for beef, the American National Cattleman's Assn. has pointed out.

The nation's cow herd totaled 82.4 million head on Jan. 1, 1977 — down 4% from a year earlier and 8% from the peak in 1976, according to the government's latest cattle inventory report. This reduction in herd size resulted primarily from a record large cow slaughter of 11.6 million head in 1976 and 10.6 million in 1978.

The numbers reduction phase of the current cattle cycle is expected to continue (although at a slower rate) in 1977, and the cow herd may drop to about 61 million head on Jan. 1, 1978, it was noted by economists with Cattle-Fax, the market analysis arm of ANCA.

However, they said, if adverse drought conditions continue in midwestern and western pasture and range country, there could be further severe herd liquidation, and the basic cow herd could decline even further this year.

At this time, Cattle-Fax is expecting a 9 million head row kill in 1977. In January, the total was 820,000 head, down 18% from a year earlier. The February total is estimated at 800,000 head, down 6% from the same month in 1976. While less than the high lows of a year earlier, the 1977 monthly cow slaughter totals so far still are relatively large.

## Fed Cattle, Butcher Hogs Lower at Terminal Markets Monday, Receipts Up

Around the major market circles Monday fed cattle receipts were slightly above a week ago and hog numbers were higher by about 12,000 head. Labor trouble due to strikes had closed numerous packing houses. Prices were sharply lower on both fed cattle and hogs at all points. Price trends, quotations on choice and prime steers and heifers and on the mixed good and choice grades and on U.S. 1-3 hogs and weighing generally in the 200 to 270 pound range included:

## Double Check Farms Sells Pinzgauer Production Sale At Terrell March 19

Terrell, Texas — Double Check Farms of Argyle, Texas, has announced the First Premier Pinzgauer Production Sale to be held Saturday, March 19, 1977. Sale time is 2 p.m. at the J-Ben Cattle Sales Facility on FM 148 (one-half mile south of I-20 at Terrell, Texas).

Double Check Farms, owned by the Finney family, is a pioneer breeder of Pinzgauer cattle in the Southwest. Chuck and Ken Finney have been active in the Pinzgauer breed associations and have pro-

duced Pinzgauer exhibits throughout the Southwest.

Selling in this first production sale by a Southwest Pinzgauer breeder will be a pureblood Pinzgauer bull and a pureblood heifer. A bred 8/4 Pinzgauer heifer to calve in May, 1977 will also be sold. This should be the first 7/8 Pinzgauer in the United States.

Also selling are 6 open 3/4 Pinzgauer heifers, 8 - 3/4 blood Pinzgauer pairs, 25 bred 1/2 blood cows and heifers, 15 open 1/2 blood heifers and 8 - 3/4 blood, perform-

ance tested Pinzgauer bulls. Buyers are asked to bring their semen jugs to this sale. Two ampules of Alamo semen will be given with each female in the sale. Alamo semen will also be available at the sale.

A pre-sale get-together will be held at 8 p.m., March 18 at the J-Ben facility. At 11 a.m., March 19, coffee will be served at a cattle preview. Lunch and a social hour will be held at 12 noon prior to the 2 p.m. sale.

Auctioneer will be Stanley Stout. For sale catalogs contact Double Check Farms, Rt. 1, Argyle, Texas 75828, 817/466-2886.

## You Can Participate In One Of America's Most Talked About Limousin Breeding Programs

No place else in America can you buy 180 half-blood daughters of Diplomat, Eclair, Espoir CIMB, Dandy and Dandlin C at one place, at one time, out of the same herd, all with the same herd prefix, all between three and five years of age, and all bred to calve within 60 days of each other.

This is the kind of meticulous breeding program you find at Dameron Land and Cattle Company. All of these cows are out of our strictly culled and highly selected production herd and are fully guaranteed to the buyer's satisfaction.

These cattle are bred to the top bulls in the Castor line, and all will calve between April 1 and May 31; 15% or 88 percent will be calved out by April 30.

As a special offering, we are also presenting 40 three-quarter cows out of the same bulls, bred the same way, and all will calve out in 38 days beginning April 1.

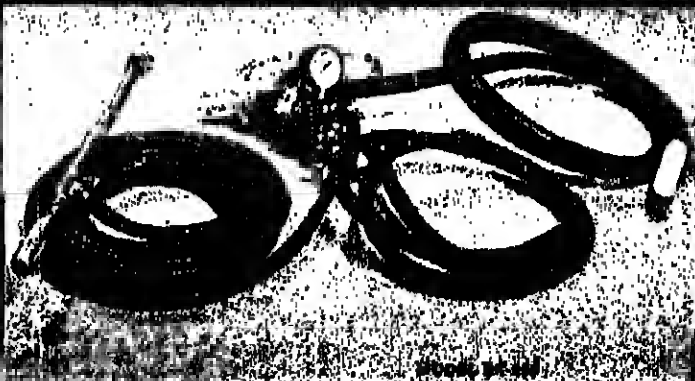

These are two exceptional groups of cattle that are being moved out of our production herd to make room for higher percentage cattle in our program. This is a rare opportunity for the serious Limousin enthusiast to obtain either a complete herd or the nucleus of one, all performance and production tested and proven — a ready made breeding program.

# Cattlemen Oppose Wheat Graze Out Subsidy Plans

(CONT. FROM PAGE 1)

— that is, to encourage wheat farmers who have not been in the cattle business to buy cattle in order

to take advantage of the government subsidy. "Another problem is that this would be a selective subsidy, benefiting just some producers in some areas but hurting others. Unless a producer is engaged in both wheat and cattle operations, he can realize no benefit from the proposed program. A man who is only in the cattle business (for

example, a cattle producer who operates on native pasture, or a feedlot operator) receives no subsidy or any other benefits. The wheat farmer, in order to receive the subsidy, must purchase cattle.

"Because of this discriminatory subsidy, the free enterprise nature of the cattle industry would be dealt a blow. If some cattle buyers receive a government subsidy, they can afford to pay more for stocker cattle, artificially pushing up prices in the market place. When the farmer or rancher who does not have wheat operations tries to buy cattle, he must pay the artificially inflated price also."

At first glance, said Finney, the possibility of higher prices appears to be of benefit to cattle producers. However, this would be very short-lived price strength. As soon as the wheat fields were grazed out, the cattle would be sold, adding to a supply problem. Cattle usually are sold off grazed-out wheat in May or June. If weather continues dry, the ANCA president noted, movement of those cattle will coincide with sales of cattle off other ranges because of drought — compounding price problems.

"Most cattlemen believe in the free enterprise, competitive market," Finney told the Congressmen. "The market place should dictate the economic feasibility of grazing or buying wheat — free of any subsidy program. We ask that you not enact KH-8887 or any similar legislation."

DOUBLE  
CHECK FARMS

Dear Friends,  
We want to take this opportunity to personally welcome you to our "Premier Pinzgauer Production Sale" and to have you share in our Pinzgauer experience.

As pioneer American Pinzgauer breeders, our faith in the Breed has grown even stronger as the Breed continues to set new performance records among all U.S. cattle which is the positive indicator that Pinzgauer will definitely improve future U.S. beef production. We are extremely proud of our role in Pinzgauer production and promotion.

The cattle selected for this sale are from a full spectrum of foundation breeds and will reflect greatly on our reputation as Pinzgauer breeders. We are offering which we feel is an "outstanding" set of cattle, striving for a reputation as "outstanding" Pinzgauer breeders.

We are making every effort to see that your attendance is enjoyable, educational and profitable for you. Should there be any way we can be of assistance — please let us know.

The five-year-old returning first day at school told his tale. "I'm not going back. I can't read, can't write, and they won't talk."

## March 3, 1977 WEEKLY LIVESTOCK REPORTER Page 11 S. W. Farm Show Will Feature Tractor Pull At Fort Worth, March 11 Thru 13

Tractor pullers from Texas, New Mexico, Oklahoma and a dozen other states will compete for over \$28,000 in prize money March 11-13 in Fort Worth at the Southwest Championship Tractor Pull.

The pull will be held each evening following the Southwest Farm Show which will be open each of the three days from 10:30 a.m. to 5:30 p.m., according to Farm Show manager, Harry Bryant.

Beginning at 7 p.m. on Friday and Saturday, and at 8 p.m. on Sunday, the pull will be held in the 11,000 seat Tarrant County Convention Center.

The Farm Show will be held in the Convention Center Exhibit Hall and in large circus-type tents west of the center.

## Ag-Land Fund Is Opposed by FB

Washington, Feb. 24 — A proposed fund to invest in agricultural land poses a major threat to the nation's farmers, Harold B. Steele, Illinois Farm Bureau president, told a House Agriculture Subcommittee hearing here today.

The Ag-Land Fund proposed by Continental Illinois National Bank and Trust Company of Chicago "would be the first step toward large scale ownership of farm properties by powerful financial interests," Steele told the subcommittee on family farms and rural development.

Steele, a member of the American Farm Bureau Federation Board of Directors, testified on behalf of the national organization. The subcommittee is examining implications to family farms of the Ag-Land Fund, an investment trust to purchase and manage farmland.

"Farmers are extremely apprehensive" about the proposal, Steele said, feeling that it "would change the pattern of farmland ownership in this country from local ownership to private individuals or small groups of individuals to absentee ownership by financial institutions or large corporations."

## SOUTHWEST FARM SHOW

### Style Show Is S.W. Farm Show Feature March 11-13

Fort Worth — Fashion minded homemakers from across the Southwest will compete for a host of prizes and trophies during the Natural Fibers Fashion Review in Fort Worth on March 12, according to Jean Vandellano, coordinator of the fashion show and associate director, Natural Fibers and Food Protein Commission.

The J. C. Pennay Company is providing the prizes for the winning entries. Tom Morgan, the company's regional public relations manager, says the two third place contestants will each receive \$50 gift certificates. Second place finishers will get \$75 certificates, while the two division winners will receive \$100 gift certificates. Winners also will receive trophies, and the Grand Award winner will be presented with a lovely piece of engraved silverplate. Mementos will be given to 10 honorable mention contestants.

The style show is held as a part of the Southwest Farm Show and Championship Tractor Pull, March 11, 12 and 13. It is co-sponsored by The Progressive Farmer magazine, which will present trophies to the winners.

Those eligible to enter are members of Young Homemakers of Texas and Oklahoma; wives of Young Farmers; wives of Southwest Tractor Pulling Clubs; and wives of members of the International Flying Formers Association. Garments must be made out of part natural fibers — 50 per cent cotton and wool, and 10 per cent mohair, Vandellano pointed out.

The style show is free and open to everyone and will begin at 4 p.m., Saturday, March 12, in the Tarrant County Convention Center.

### Southwest Farm Show At Fort Worth March 11

With a thundering roar and gleaming exhibits of \$8 million of farm machinery and equipment, the Southwest Farm Show and Championship Tractor Pull will open for a three-day run, March 11 in Fort Worth.

Housed in the Tarrant County Convention Center, the show doors will open at 10:30 a.m. and close at 5:30 p.m. each day, March 11-13, according to Harry Bryant, Farm Show manager.

This will be the largest array of farm machinery we have ever had," Bryant said. He pointed out that the Convention Center exhibit hall, over 100,000 square feet, has been filled and additional thousands of square feet of exhibits have moved to large tents across the street west of the center.

Although the Farm Show is free and open to the public, Bryant urged spectators to go by their local implement dealer for free registration forms for hundreds of dollars worth of door prizes to be given away during the show.

The forms will also be available at the Farm Show entrance.

Climaxing each day's events will be a Championship Tractor Pull featuring some of the Southwest's most exciting modified and hot-rod tractors and drivers.

Tractor pulls will begin at 7 p.m. Friday and Saturday and at 6 p.m. on Sunday.

Reserved tickets are available for the pulls and may be ordered: Tractor Pull, P. O. Box 938, Fort Worth, Texas 76101.

On Friday, March 11, the New World of Agriculture Forum and luncheon will feature state and national leaders.

Tickets are required for the forum and may be secured through local County Extension Agents in advance.

Other Farm Show features include a Texas State FFA Tractor Mechanics Contest at 6:30 p.m. and a Natural Fibers Fashion Review at 4 p.m., both scheduled for Saturday, March 12.

One good reason was seen unable to solve the puzzle of the world's problems is because a peace is missing.

## Herrin Honored

### At Houston

#### Hereford Show

Houston — The R. T. "Bob" Herrin Register of Merit Hereford Show was held Feb. 26 at the Houston Livestock Show, named after Herrin to recognize his work in improving the Hereford breed. Herrin is the International Ambassador for the American Hereford Association.

"I think the Hereford breed has come a long way in the 100 years it has been in the United States and I'm sure it will go even further in the next 100 years," Herrin said.

Roger Stuber, president of the American Hereford Association, said the Hereford breed was imported into the United States in about 1860 from Herefordshire, England.

"The Hereford breed is the most popular cattle breed in the U.S. and has the largest beef registry in the world," Stuber said.

The Grand Champion Female was awarded to "AA Miles Advance 315," owned by Arbutnot Herefords of Haddam, Kan. "AA Miles Advance

315" is 28 months old and weighs 1260 pounds. She is the 1977 grand champion heifer of the Ft. Worth "Jack Turner Register of Merit" Show and the 1976 reserve grand champion heifer of the Kansas State Fair.

Reserve grand champion went to "OK Big N' Mice," owned by Glenrich Farms of Mayeville, Mo. "OK Big N' Mice" is 21 months old and weighs 1180 pounds. She is the 1977 reserve champion of the Missouri State Fair.

Grand champion bull went to "Great Northern 563," owned by Wiese and Sons of Menzing, Iowa. "Great Northern 563" is 22 months old and weighs 1700 pounds. He was the 1976 reserve grand champion at Tulsa and at Louisville.

Reserve grand champion went to "Willow Flat Lad 18F," owned by Quantock Cattle Co., Ltd., "Willow Flat Lad 18F" is 21 months old and weighs 2100 pounds.

Rod Ogren of Marcus, Iowa judged the show and said he was encouraged to see the increased size and trim condition of the animals in the show.

## Gulf Coast

### Hereford Sale

Columbus, Texas — In the Gulf Coast Hereford Association's sale here Feb. 11, 55 bulls sold for \$36,790 for an average of \$668 and six heifers for \$2,460 to average \$410.

Topping the sale at \$1,500 was two-year-old bull consigned by Millcreek Farms, Industry, Texas, that was purchased by C. E. Everett, Eagle Lake. The bull had been named champion in the show before the sale.

JDQ Hereford Farm, Durton, consigned the second high selling bull, one purchased by Wakonville Ranch, Brenham, for \$1,300.

Two bulls went for \$1,200 each.

## Farmers Opposed To Big Labor's New Shopping List

(CONT. FROM PAGE 1)

"According to press reports, the AFL-CIO wants an immediate 23% increase in the minimum wage with a built in escalator clause: a 85-hour work week with workers paid for 40 hours; double-time for overtime; repeal of the Right-to-Work laws in 20 states; all public employees and agricultural workers brought under collective bargaining laws; and legalized secondary boycotts in the construction industry.

"To all of this we say 'no.' We believe most Americans are ready to call a halt to the monopoly power of organized labor.

"We call upon Americans in all walks of life to join those of us on the farms and ranches of this country — to get in touch with members of the Congress and with President Carter to let them know that it is time that the best interest of the general public be taken into consideration, rather than the demands of a special interest group that represents only a fourth of the nation's working people."

## Farmers Union To Meet March 5-9 At San Antonio

(CONT. FROM PAGE 1) San Antonio, Texas, March 5-9. Conventions sessions will be at the San Antonio convention center. Headquarters hotel will be the Hilton Palacio Del Rio Hotel.

More than 3,000 delegates and visiting members are expected to come to the history-rich Texas city, according to Tony T. Dechant, President of the Farmers Union. "Though our convention will mark many achievements of our 75-year history, which began in a country school house in Rains County, Texas," Dechant said, "our principal focus will be on how we can help bring about a national food policy which will sustain abundant production while enabling producers to earn returns which will keep them in business.

Adoption of a 1977-78 Policy Statement, with recommendations on national and international food and trade policy, will be the major official business of the convention.

## Nutrition Panel To Hear Beef Industry Witnesses

(CONT. FROM PAGE 1)

money earlier this year in which some nutrition and health experts recommended that we reduce our dietary intake of sugar, salt, and fats," McGovern said. "The Committee report, based on that testimony and issued under the title 'Dietary Goals For the United States,' was taken by some segments of the beef producing industry to mean that we should eat less meat," the South Dakota said.

"I view the testimony as a plea for consuming more 'lean' meat in proportion to our overall consumption. In the final analysis the market will determine the type of products that Americans wish to eat and I think our Committee can provide a forum to shed light on all sides of these questions," McGovern said.

The Senator said his discussion with cattle producers indicated that they too are interested in producing high grade protein with less waste in the form of fat that must be trimmed before consumer cuts are marketed.

"Earlier this month I announced that the Agriculture Committee would be holding hearings to late May to look into the current economic problems facing cattle producers. Many of them believe that by marketing a leaner animal that is still palatable to the shopper we can eat our way out of the current market difficulties. I continue to believe that red meat is still an essential part of

returns. If production costs continue to climb, if per capita demand for beef continues to lag behind historic levels, and if population growth slows, a slower average rate of growth in cow herd size may be required in future years.

One thing to keep in mind, ANCA said, is that the beef supply from a given size cow herd does not reach the market until 1 1/2 to 2 years after birth of the offspring. Thus, the recent reductions in cow herd size will not be fully felt in the market place until 1978 and 1979 — just as the large 1974 calf crop was not fully reflected until 1978 (when there were record large beef supplies as a result of hard liquidation as well as the record large calf crop two years earlier.)

CattleFax said that, based on current economics, annual per capita beef supply may have to drop to around 115 lbs. or less before industry the American diet and I welcome the opportunity for the members of the Nutrition Committee to hear the recommendations that will be offered in our session of the 24th of March.

In the foreseeable future, he said, these same gains in beef output per cow are not likely. Therefore, beef production will depend more on cow herd size, and it will be possible to monitor herd size and longer range supply trends more accurately.

returns will be generally favorable (although reduced feeder cattle numbers could put many producers back in a break-even or profit position by late 1977 or early 1978). Prospects now are that per capita supplies will decrease from 123 lbs. (carcass weight) in 1975 to about 121 lbs. in 1977 and 116 lbs. in 1978, with a further decline in 1979 and perhaps 1980, before cyclical increases in per capita supplies resume.

Flooy went on to point out that, during past cycles, beef production was increasing not just because of larger cow numbers but also because of significantly rising output per cow. The increase per cow resulted from (1) a shift from dairy to beef cows; (2) an increase in feed beef as a proportion of the total; (3) decreased calf slaughter and more feeding out of calves; (4) improved calving rate; (5) improved technology and management.

In the foreseeable future, he said, these same gains in beef output per cow are not likely. Therefore, beef production will depend more on cow herd size, and it will be possible to monitor herd size and longer range supply trends more accurately.

The increase per cow resulted from (1) a shift from dairy to beef cows; (2) an increase in feed beef as a proportion of the total; (3) decreased calf slaughter and more feeding out of calves; (4) improved calving rate; (5) improved technology and management.

In the foreseeable future, he said, these same gains in beef output per cow are not likely. Therefore, beef production will depend more on cow herd size, and it will be possible to monitor herd size and longer range supply trends more accurately.

with the Presidential Edict to make disclosures of personal matters, including financial data, and while they are blamin' the delay on fillin' thea jobs on th' thum it takes th' FBI to check out thea people, this story is startin' to generate some doubt.

Natchery, one of th' Big Jobs th' new president has in Immaage Buildin', for instance, the other day he ordered

Cabinet Members to read ALL th' regulations their Burrocrats issued. A good idea, except they would have no time for any thang else. This has been eased to ALL IMPORTANT rega. we are now told.

It would appear th' President's order to halt all of them Warter Projects is more of an effort on his part to demonstrate who is runnin' the show, than it could possibly be a serious threat to shut off th' warter and depopulate areas of th' West where without that warter th' country

will revert to somethin' close to actual desert conditions.

One of th' thangs we was always

purty ignorant about was nuthin' but the President's and Congress balance th' federal budget by spendin' \$80 or \$70 billion more than th' Govmint income amounts to. We always wound up farther in th' hole, when we run our personal finances that way, but when they show us how to spend our way to wealth & happiness, they'll be th' day

we been waitin' for!

Ever thine, The Editor.

P.S.: Dinkie Dunk has always known I'd be drawin' a crowd, but that full harr feller who climbed in th' mail truck and started throwin' out sides of beef undoubtly had th' greatest skin act yet!

McGovern and his associates (Perry, Dole and Kennedy) and the Senate Select Committee on Nutrition report advisin' people to eat less beef, and then McGovern himself around and announced he planned to investigate the cattle business to find out why it was in such dire financial straits.
